

Country Commons News Issue 2 December

It's looking like Christmas! See photos of lovely lights below...

Reminder that we're singing Christmas carols around the pile of burning brush on the 14th...

Notes from the Board: Bins behind garage 4 will be dismantled so all food scraps go to Cindy's bins. All brush goes behind Cindy's bin also. The old playground equipment will be dismantled, and we might use that wood to build a third compost bin.

Kudos corner : Thank you to Ryan Donnelly + Mike Doran for brush burning, and thank you to all the people who helped move the brush to the center area!! A big job!!

Thank you Mick for putting in the light near bldg 11.

Reminders:

If you need to talk to a contractor about something outside of your building, first contact the CC board and let them take it up. This is how it works.

Composting tips: Please remember to take off plastic labels from fruit or vegetables before putting food scraps into your compost bucket.

AND always put green compostable plastic bags into regular trash. They need to be processed by a high heat composter.

Happy Holidays!! So far, not much snow, but winter is not over yet!

(Thanks to good neighbors for the beautiful decorations from the Newsletter committee.)
