

Country Commons March Newsletter 2023

Mud season is almost here...!

And time to start thinking about maybe forming some work parties to clean up and carry brush to the center area, take down the swing set, mulch the gardens, ...could be a long list. But easier done by many.

*It would be good to brainstorm about what we can do to improve the gardens. Any thoughts or suggestions -- and helping hands --are welcome.

Kudos corner:

Kudos to the COA board, that has been working on the light situation up on the hill....Soon to be easier to see at night up there.

Also many Kudos to everyone who moved their vehicles to garages during the last snow storm—but remember --winter isn't over yet!

Reminder: Please turn in your association fees by the 10th of the month at the latest. There is a penalty if you're late.

Also remember that the speed limit is 10MPH. Watch those curves!! The grass takes time to recover from the winter driving, salt, plowing etc. !!

Announcement of open COA board meeting: at the Bixby Library on March 15th—6-7pm in the Half Round Room. All Condo members are welcome.

Here are some pictures of a Coopers Hawk and our resident Screech Owl taken by Jeannette. She says the Hawk was sighted in December and the Owl last seen on Feb. 1st.

Be well. The Newsletter Committee
